

HIP+JOINT FOR DOGS

HIGH-QUALITY JOINT SUPPORT FOR ALL DOGS

HIP+JOINT for dogs provides advanced nutritional joint support for working dog breeds, competitive and senior dogs.

When your dog gets up more slowly to greet you, you know he's not just tired. It may be time for added joint support. **HIP+JOINT** is formulated using naturally source ingredients and contains no harmful chemical preservatives such as BHA or BHT.

HIP+JOINT for dogs features extensively researched ingredients including glucosamine and chondroitin as well as Perna for maximum nutritional absorption and effectiveness, all in a delicious, duck-flavored chew.

Containing 6 beneficial ingredients, Pet Naturals® **HIP+JOINT** for Dogs will provide the building blocks essential for healthy joints.

ABOUT OUR INGREDIENTS:

- + **Perna canaliculus** is a green-lipped mussel from an exclusive New Zealand source. Unlike Perna extract-based products and mussel powders, which may lack important fatty acids and other bioactive components (e.g. defatted powders or extracts), the entire organism is utilized in our Perna.
- + **Glucosamine** has been shown to support the production of glycosaminoglycans (GAGs) within the cartilage matrix and synovial fluid. As your dog ages, there is a decrease in the production of GAGs, which can result in joint stress, thinning of synovial fluid, and the breakdown of connective tissue. Glucosamine also supports bladder and urinary tract health by supporting the integrity of the mucosal lining.
- + **Chondroitin Sulfates** helps support the proper structure and function of healthy connective tissues and joints. Sulfates in these products are derived from Porcine Cartilage which is a rich source of biologically-active Chondroitin Sulfates.
- + **MSM** is a source of sulfur. It supports the structure of joints and connective tissue. Increased availability of MSM is linked to comfort and mobility, as well as the support of collagen production.
- + **Manganese** is an essential mineral for the formation of collagen, GAGs, and proteoglycans, all of which support required cartilage integrity. A lack of manganese can lead to inefficient production of GAGs within the joints.
- + **Vitamin C:** The antioxidants in our formula help support immune system response, proper detoxification function, free radical neutralization, as well as provide support for a healthy inflammatory response.

Active Ingredients Per 1 Chew (2.0 g):

Glucosamine HCl (Shrimp and Crab)	100 mg
Methylsulfonylmethane (MSM)	50 mg
Perna canaliculus (Green-Lipped Mussel)	50 mg
Chondroitin Sulfate (Porcine)	37.5 mg
Vitamin C (Ascorbic Acid) (L-ascorbyl-2-polyphosphate)	6.25 mg
Manganese (Mn Proteinate)	0.625 mg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, maltodextrin, mixed tocopherols, natural duck flavour, oat, propionic acid, rosemary, rye, silicon dioxide, sodium alginate, sorbic acid, lecithin, vegetable oil, water.

- ✓ Crafted in the USA
- ✓ No Corn
- ✓ No Wheat
- ✓ No Artificial Ingredients

DIRECTIONS FOR USE:

Up to 6 kg:	1 chew daily
6 - 20 kg:	2 chews daily
20 - 34 kg:	3 chews daily
Over 34 kg:	4 chews daily

For extra support, double the dose for the first 4 weeks. If giving more than 1 chew, divide between AM and PM.
